

Tear-off Spades, Forks, Shovels & Rippers

ROOFMASTER TIGERR™ FIBERGLASS TEAR-OFF SPADE

These high-performance fiberglass handled tear-off spades have more than double the breaking strength of our wood-handled spades. Tigerr Spades only cost about 1/3 more than our wood-handled spades, but may have double to triple the life span.

- 200300 Notched Edge with Fulcrum
- 200306 Notched Edge with Reinforcement
- 200400 Straight Edge Blade with Fulcrum
- 200406 Straight Edge Blade with Reinforcement

NORTHWEST MODEL

This Tigerr spade has a wider fulcrum that is moved closer to the handle. This changes the angle of the fulcrum to facilitate removing both comp & wood shakes on steeper slopes with the same tool.

- 200307 Notched Edge *Northwest* with Reinforced/Fulcrum
- 200407 Straight Edge *Northwest* with Reinforced/Fulcrum

ROOFMASTER WOOD TEAR-OFF SPADES

Our traditional wood-handled tear-off spades have been top performers in the roofing industry for many years. A solid 1-3/8" diameter *premium-Ash* handle makes it the strongest, longest lasting handle in the industry.

- 200600 Wood Handle T.O. Spade with Fulcrum Wt: 6 lbs.
- 200601 Wood Handle Garden Spade Only Wt: 4.3 lbs.
- 200606 Wood Handle T.O. Spade with Reinforcement Only Wt: 6 lbs.
- 200650 Roofmaster Wood Handle - Closed Back Spade Wt: 4.3 lbs.
- 200700 Roofmaster NOTCHED Wood Handle Spade with Fulcrum Wt: 6 lbs.
- 200701 Roofmaster NOTCHED Wood Handle Spade Wt: 6 lbs.
- 200706 Roofmaster NOTCHED Wood Handle Spade with Reinforced Back Wt: 8 lbs.
- 200626 Wood Replacement Handle with Rivet Wt: 1.66 lbs.
- 200408 Straight Edge *Special "Full Weld" Edge* with Reinforced Back
This model has a full seam weld at the leading edge of the reinforced back so debris cannot get caught between the back & blade. Special order only. Wt: 6 lbs.

SPADING FORK

- 201000 Ideal for composition and shake tear-off. Tines are 10" long. Fork width is 7-1/8". Features 30" long hardwood handle with Steel. "D" handle. Wt: 4.5 lb.
