

10" STRAINERS

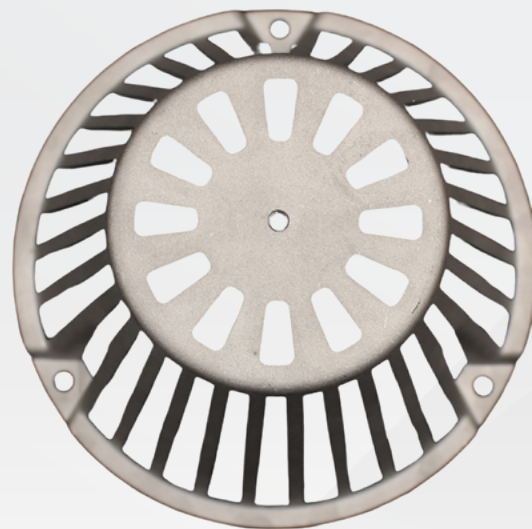

Aluminum & Cast Iron

New Features

- Increased Height for Better Drainage
 - The new dome stands 1" taller than its predecessor, allowing for improved water flow & debris clearance
- More Robust Design
 - Engineered for enhanced durability, the updated dome offers superior strength while maintaining lightweight functionality
- Modernized Aesthetic
 - The refined design aligns seamlessly with other high-quality drain products on the market, ensuring a uniform & professional appearance
- 7" Tall & 10" Diameter
- Exact Match for Industry Standards
 - Cast iron domes have been completely redesigned to precisely match the widely recognized aluminum domes, reinforcing consistency across all applications

This enhanced design has been fully integrated into all our drain lines utilizing this strainer, providing superior water flow, increased durability, and a more modern aesthetic that aligns with today's industry standards.
