

Marathon Companies Celebrates Successful Year at Annual Holiday Party:

The Marathon Companies celebrated their annual Holiday Party tradition at the Mansard Inn near our offices in Orchard Park NY. We have been doing these gatherings for over 55 years and look forward to many more. The special night was highlighted with great cocktails, appetizers and an excellent dinner enjoyed by all. President Tod Cislo and the entire Board of Directors topped off the night by dispersing gifts to all that attended by participating in some competitive games. Fun was had by all. In addition, each person in attendance received a beautiful bottle of wine to be taken home and enjoyed. The night would not have been possible without everyone's handwork in 2023. Thanks to all employees that helped us achieve another successful year for the businesses!

A message from Tim:

I hope all of you had a Great Holiday with family and friends. THANK YOU to our Customers for a Great 2023! We appreciate your continued business and friendship. We are looking forward to 2024 and continuing to offer our customers the best products and customer service in the industry. If there is anything that you need, please do not hesitate to contact me.

FEATURED PRODUCTS: GET READY FOR WINTER!

ROOF DRAIN MARKER

Universal fit, it top mounts to all sizes & shaped covers. Impervious to fresh water, reversible with lock in feature, this product is specifically designed to mark your roof drains. Our reversible roof drain flag markers will safely & reliably identify all your roof drain locations, storm after storm, year after year. Built to last the life of the roof. Proudly manufactured in the United States, we ensure the highest quality of materials and craftsmanship.

SNOW GUARD

Protecting people and property from falling snow & ice. *The Blizzard Snow & Ice Retainer*, constructed from polycarbonate, prevents the dangerous movement of snow & ice by allowing the snow or ice to melt completely or drop off in small amounts. Our *Snow & Ice Retainers* are a practical, cost-effective addition to any sloped metal roof in winter climates.

DRUM HEATERS

Drum Heaters are thin, flexible electrical resistance heaters that may easily be wrapped and secured around drums, pails and tanks. They are made of silicone rubber - reinforced fiberglass cloth laminated around a nickel alloy circuit. The construction provides an even heat transfer, which keeps contents at proper handling or process consistency and limits scorching or degradation of sensitive contents. A sturdy spring and hook arrangement easily attaches to these products to 5, 15, 30 or 55gal drums. Drum Heaters are available for both metal and non-metal (poly or plastic) drums. Drum Heaters may be used outdoors as long as they are protected from rain or snow.

EMPLOYEE SPOTLIGHT: STAFF SERGEANT, NICK EMHOF INTERNS & RETURNS TO ARMY FOR ACTIVE DUTY

Nick Emhof, son of Inventory Manager at the Marathon Companies, Tony Emhof, is an active member of the United States Army and has recently completed an internship with us to further his personal career goals. Nick assisted in many facets of the businesses including inventory control, customer service and sales support.

Message from Tod Cislo, President of Marathon Companies:

“Nick worked for us as a young man prior to his military career. When I was approached to see if he could intern we were thrilled. I looked forward to seeing how he matured in the military, and I was not disappointed. We are thankful for Nick’s services and our best wishes go out to him and his family as he transitions in early 2024 to the next phase of his life and hope his experience with us helps him in his future endeavors.”
