

MARAPAK+

NEW Installation PVC Drain

MODEL MaraDrain – DRAIN KIT IN SIZES 2", 3", 4", & 6"

MaraPak+ is the assembled kit of the MaraDrain with all the components for easy installation. MaraPak+ provides the essential features of more expensive drains at an affordable price. It is adaptable to most generic materials of single ply and conventional built-up roofing for use with roof decks of steel, wood, precast concrete or gypsum. This drain offers versatility and easy installation on new and existing roofs.

FEATURES:

- Molded polyethylene dome strainer. Bolts securely to clamping ring
- Injection molded PVC or ABS body. Ultraviolet stabilized for long life. Solvent welds to PVC or ABS DWV pipe
- Epoxy coated aluminum clamping collar with gravel stop. Grooved for positive drainage on smooth surfaced roofs. Distortion resistant and unbreakable
- Aluminum underdeck clamp. Fastens drain securely to deck
- Flexible expansion coupling. Connects to PVC, ABS, or cast iron pipe supplied with Enpoco Pak. * Recommended to be used for possible expansion and movement of roof system
- Overflow options available in either 2" overflow dam or PVC insert

SPECIFICATIONS

MaraDrain 3" (76mm), 4" (102mm) or 6" (152mm) comes with polyethylene dome (optional cast iron dome available), cast aluminum underdeck clamp, 4" (102mm) connecting length of Schedule 40 PVC pipe and a Expansion coupling, as supplied by Marathon Roofing Products, Inc.
