

Marathon Drains Utilized for Tri-Main Center Project in Buffalo:

"I just completed re-roofing nearly 60,000 SF of 55-year-old roof on the 6th floor of the building here at the Tri-Main Center in Buffalo. I told the roofer at the onset that I wanted Marathon replacement drains when we first walked the roof. That's exactly what I got, The "Aluminator" replacement drain!

Carmody Roofing went to their supplier, Beacon Building Products, to get the dozen or so Marathon replacement drains I needed. I have to say that they add a great finishing touch to the new black EPDM roof." Kudos to the Marathon crew for providing the myriad of roof drain solutions and products for roofing needs everywhere! Thanks to Beacon and Mark Flury for quickly supplying the new drains and strainers, and to Carmody for the great install!"

- Harry Chomen - Senior Project Manager - TriMain Development L.P.

A message from Tim:

"I personally wanted to thank all of our Customers, REPS and Vendors for a great year we had at Marathon Roofing Products. I'm looking forward to the upcoming holiday to spend time with family and friends. I would also like to wish all of you a Merry Christmas and a Happy, Healthy New Year! Looking forward to a great 2024 and your continued loyalty and support that you have given Marathon over the years."

FEATURED PRODUCT: ENPOCO PAK ROOF DRAIN WITH NEW FEATURES

Our **NEW AND IMPROVED PVC DRAIN BODY** for our Enpoco Pak and ULRD PVC roof drains has been redesigned to be stronger while offering more flexibility via the additional option for an overflow insert.

NEW FEATURES:

- Redesigned to increase strength of gussets
- Grooves added to create a tighter fit between the clamping ring and the drain body
- The ability to create an overflow drain by simply inserting PVC pipe

CAST PAK ROOF DRAIN

The Cast-Pak roof drain offers versatility and easy installation on new and existing roofs. Made of epoxy coated cast iron body that is supplied with a metal clamping ring, under-deck clamp, rubber coupling and strainer.

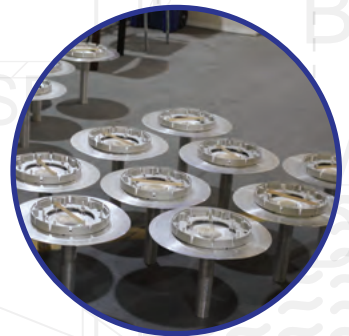

FEATURES:

- Molded polyethylene strainer bolts to clamping ring
- Metal clamping ring with gravel stop
- Metal underdeck clamp
- Cast Iron drain body

MARATHON CELEBRATES THE HOLIDAYS: 1ST ANNUAL DRAIN HOLDING CONTEST

Marathon employees found time for some fun to start the holiday season. The entire staff participated in the **1st annual drain holding contest** where they were asked to hold, straight out, one of our insert drains with a clamping ring, weighing close to five pounds. It was a great team building exercise, with competitive spirit. As the time ticked by, 1-minute, 2-minute, 3-minutes...many started to drop out as few continued. Roberta in our accounting office was the champion for the women with just over 4 minutes! Great job Roberta! Our final two men, Nick our intern from the US Army and Chris our Marketing lead, were amazing and toughed it out for over 6 minutes. However, Chris was victorious with the winning time of 6 minutes and 18 seconds. The winners received a half day off and everyone enjoyed the provided lunch, which included a 3-foot-long sub as a centerpiece. What a great way to kick off the holidays!
