

POSEIDON

Stainless Steel Line

Features

- **Unmatched Corrosion Resistance:** Constructed from Premium 316L Stainless Steel for Exceptional Resistance to Corrosion, Moisture & Harsh Environments
- **Built for the Toughest Environments:** Ideal for Coastal, Industrial, Chemical & High-Moisture Applications Where Corrosion Protection is Critical
- **Premium Performance:** Clamping Ring & Strainer Features 48 Scallops to Maximize Drainage Efficiency.
- **Strainer Dimensions:** 10" in Diameter & 6" Tall, Secured with Three Bolts
- **Proseal Rubber Seal:** Provides a Watertight Mechanical Seal to Prevent Water Backup
- **Flange Diameter:** 16"
- **Outlet Length:** 12"
- **Available Sizes:** 3", 4", 5", & 6" Outlet Diameters

Options/Accessories

- Security Hardware
- PVC & TPO Coating
- Cast Iron Ring & Dome
- Tape Seal

Part Number	Drain Size	Fits into Pipe ID
BSS3P	3"	2-7/8" - 3-1/4"
BSS4P	4"	3-7/8" - 4-1/4"
BSS5P	5"	4-7/8" - 5-1/4"
BSS6P	6"	5-7/8" - 6-1/4"

The Poseidon Stainless Steel Retrofit Roof Drain is the industry's **ONLY** 316L Stainless Steel Retrofit Roof Drain. Engineered for reliability in the harshest environments, it delivers unmatched durability, corrosion resistance, and long-term performance.

Featuring a heavy-duty 316 stainless steel clamping ring and strainer with 48 scallops for superior water flow, the Poseidon ensures consistent drainage even under heavy storm conditions. Its 10" diameter, 6" tall strainer is secured with three bolts for added stability, while the ProSeal mechanical seal provides a watertight connection for peace of mind and ease of installation.

The Poseidon offers a versatile solution that's easy to install and built to perform for decades.
